

# ICDAM-2026

## 7<sup>th</sup> International Conference on Data Analysis and Management

*Organized by London Metropolitan University, London, UK (Venue Partner)  
in association with*

*WSG University, Bydgoszcz, Poland, Europe*

*&*

*Portalegre Polytechnic University, Portugal, Europe*

*&*

*SGGW Management Institute, Poland, Portugal*

*Date: 12<sup>th</sup> – 14<sup>th</sup> June 2026*

\*\*\*\*\* **CALL FOR PAPERS** \*\*\*\*\*

### **SPECIAL SESSION ON**

**Convergence of AI, Immersive Media and Emerging Computing**

### **SESSION ORGANIZERS:**

Dr Suman Madan, Professor, ATLAS SkillTech University, Mumbai, INDIA

Dr Rupal Mahajan, Assistant Professor, Utica University, NY, USA

### **SESSION DESCRIPTION:**

This special session aims to bring together researchers, academicians, and practitioners exploring the convergence of Artificial Intelligence, immersive media technologies, and emerging computing paradigms. The session focuses on intelligent systems, synthetic and immersive environments, smart digital ecosystems, and transformative computing frameworks shaping the future of interaction, learning, and innovation.

Contributions addressing AI-driven immersive platforms, deepfake and synthetic media technologies, adaptive learning environments, trustworthy computing, and interdisciplinary applications are encouraged. Both theoretical advances and real-world implementations are welcome.

### **RECOMMENDED TOPICS:**

Topics to be discussed in this special session include (but are not limited to) the following:

- AI-driven immersive and intelligent digital ecosystems
- Metaverse, virtual, augmented, and mixed reality systems
- Deepfake generation, detection, and synthetic media technologies
- Smart education and adaptive learning environments
- Human–AI interaction and intelligent interfaces
- Digital twins and simulation platforms
- Edge, cloud, and distributed computing frameworks
- Trustworthy AI and ethical digital ecosystems
- Intelligent analytics and decision support systems
- Cyber-physical and immersive computing applications

- Emerging AI frameworks for smart environments
- Interdisciplinary applications of immersive AI technologies

#### **SUBMISSION PROCEDURE:**

Researchers and practitioners are invited to submit original papers for this special session on Convergence of AI, Immersive Media and Emerging Computing on or before 30 March 2026. Submissions must be original and not under review elsewhere.

Authors should follow the conference manuscript preparation guidelines available at:  
<https://icdam-conf.com/downloads>

All submissions will undergo a double-blind peer review process.

NOTE: While submitting a paper for this special session, authors must specify **“Convergence of AI, Immersive Media and Emerging Computing”** at the top of the first page of the manuscript.
